

Rehabilitation Assistants Open Day

Thursday 20 June 2019

10am-7pm

A warm welcome to Frenchay Brain Injury Rehabilitation Centre (BIRU)

Calling all nursing carers - F/T and P/T available

Come along to our open day and get a real feel for what it's like to work here. You'll find out what it's like to work with our fantastic multi-disciplinary team and see how we make a difference to our patients. Apply online or call us now on **0117 956 2697** to discuss our rehabilitation assistant posts and book a time or alternatively just walk in on the day! We can interview you on the day and you could leave with an conditional offer.

You will work with a very friendly nursing team and make a real difference to our patients by providing excellent care and taking a pride in treating each of our patients as an individual. You will undertake a broad range of nursing duties, which include supporting our patients with daily living, assisting with their physical and personal needs – every day at BIRU is different and rewarding!

Some previous health care experience and a compassionate, caring nature are the only qualities you need ! We're not looking for qualifications,

we'll give you all the training you need to progress and develop your career. If you're looking for a rewarding job and want to make a difference to the lives of our patients you're exactly the person we're looking for to come and join our like-minded team.

We offer:

- Great rates of pay and all the support you need to develop your nursing career with us
- A thorough induction programme tailored specifically to brain injury nursing
- A very supportive, friendly team working environment
- NVQ 2 and 3 training
- Regular clinical supervision
- Clear pay structure, with competitive rates
- A range of staff discounts
- Employee Assistance Programme (EAP)

BIRU in Bristol is a well-renowned 52 bed established brain injury rehabilitation centre providing specialist inpatient rehabilitation for adults and adolescents (16+) with a brain injury. We aim to provide exceptional care and rehabilitation, achieving outcomes for patients that are consistently above the national average.
